DETAILED ACTION

Claims 1 - 12 have been examined.

Information Disclosure Statement

The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Drawings

The drawings are objected to because it appears that reference number 21 is directed towards a centerline of a shaft and not to a shaft itself. The specification clearly states that reference number 21 is descriptive of the shaft and not of the centerline/axis. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered

Art Unit: 3618

and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 - 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "which is farther from the side frames of the seat plate." It is unclear which components are farther than one another. Appropriate correction is required.

Claim 9 recites the limitation "with the occupant's backside including lower limbs open." It is unclear how an occupant's backside has open lower limbs. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claim 9 is rejected under 35 U.S.C. 102(a) as being anticipated by Iura et al. (7,003,820). Iura discloses a supportive device for handicapped people comprising:

- a wheelchair (Fig. 2, item 1);
- A planar u-shaped frame consisting of right and left side frames (Fig. 1, item 6);
- a seat supported by said frame (Fig. 2, item 43);
- a space of said side frames being open to the rear to allow for an edge of a bed to be inserted (Figs. 14 and 15);
- said seat being split from the center into right and left parts (Fig. 1, item 32);
- stays supporting said right and left parts of said seat (Figs. 1 and 2, item 31);
- said right and left parts of said seat being foldable towards the sides of an occupant and toward an upper rear direction with the surface of said seat being turned upward (Figs. 14 and 15).

Allowable Subject Matter

Claims 1 - 8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 10 - 12 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
